DISCLAIMER: The information in this directory is from a variety of sources, and is as accurate as possible. However, CNG refueling stations and maintenance facilities are constantly changing. We recommend you contact the station or facility directly to confirm the most accurate and complete information.

2001-2002 MID-ATLANTIC REGIONAL

REFUELING & MAINTENANCE DIRECTORY

FOR COMPRESSED NATURAL GAS (CNG)

FORWORD

This directory of compressed natural gas (CNG) refueling stations and maintenance facilities has been sponsored by the U.S. Department of Energy, Philadelphia Regional Office to assist and support all of the Clean Cities Coalitions, fleet operators, and other alternative fuels stakeholders and activities in the Mid-Atlantic Region.

This directory contains CNG refueling stations and maintenance facilities for the states covered by the Philadelphia Regional Office, including Delaware, the District of Columbia, Maryland, New Jersey, Pennsylvania, Virginia, and West Virginia, in addition to the key border states of New York (covered by the Boston Regional Office) and Ohio (covered by the Chicago Regional Office).

There are currently eight designated Clean Cities Coalitions in the Mid-Atlantic Region: Greater Philadelphia, Delaware, Metropolitan Washington DC, Metropolitan Baltimore, West Virginia, Pittsburgh Region, Hampton Roads, and North Jersey. These local Coalitions are made up of the major public, private, and nonprofit sector stakeholders advancing the alternative fuels market through various activities, including stakeholder meetings, fleet manager workshops, funding opportunities, training sessions, technical events, public outreach, and media campaigns.

For more information about the Clean Cities Program, please visit:

www.ccities.doe.gov, or call toll-free: (800) CCITIES

For more information on alternative fuels and refueling/recharging stations, please visit:

Alternative Fuel Refueling Station Locator afdcmap.nrel.gov/nrel/

Alternative Fuels Data Center (AFDC) www.afdc.doe.gov

Alternative Fuel Vehicle Fleet Buyer's Guide www.fleets.doe.gov

We would like to thank Cherokee Enterprises, Inc. for compiling this directory and everyone for enthusiastically contributing information! And thank you for your interest in Clean Cities and alternative fuels!

CHEROKEE ENTERPRISES, INC. (CEI), is a federally certified small, disadvantaged business (SDB) enterprise based in Miami, Florida. CEI staff includes Civil, Environmental and Chemical engineers, scientists, technicians, and Building and Pollutant Storage contractors primarily working in the field of environmental consulting and petroleum fueling services. The principals of CEI have combined experience of approximately forty (40) years. CEI maintains active board membership in the Florida Gold Coast Clean Cities Coalition to promote and increase the use of alternative fuel vehicles (AFVs) on the local level and provides consulting services for all existing and emerging AFV technologies. CEI experiences involve the Miami-Dade Aviation Department for planning and designing a CNG refueling station at the Miami International Airport, CO₂ reduction reporting for MIA and preparing AFV grant applications and managing programs funded by AFV grants.

CEI also provides services in the following:

- Environmental Remediation
- Petroleum Storage Tanks
- Stormwater Management
- Construction Management
- Project Management
- Design / Build
- Value Analysis
